ASSOCIATE DIRECTOR – CLINICAL DEVELOPMENT

An independent specialty pharmaceutical company with a pan-European presence, Norgine is committed to developing products to improve patients' quality of life. Developing medicines for unmet needs, Norgine makes a real difference. They aim to help people live happier, healthier lives.

With 23 years' double digit growth and a strong product pipeline, they are recruiting this leadership role in Clinical Development to maximise the pipeline potential. With more than 1200 staff in over 15 countries, the company's philosophy is to invest in people with experience, drive and enthusiasm to directly shape Norgine's future.

Reporting to the VP Clinical Development, you will provide medical support to assigned projects and clinical leadership to your Project Management team in relation to Phase I, II and III Clinical Development activities.

This will include being responsible for the writing and maintaining of Clinical Development Plans, the design and writing of protocols and ensuring that clinical trials are conducted in an appropriate manner with respect to GCP guidelines, quality, timelines and cost. This is a line management role.

You will be medically qualified and in possession of a valid authorisation to practise pharmaceutical medicine in an EU country. You will be able to demonstrate good career progression within Clinical Development, ideally with some line management experience.

For a confidential discussion please telephone the retained consultant – Beth Thomas-Stonier at AXESS Limited on 020 8560 2300. To apply, please send your CV to jobs@axess.co.uk quoting reference 4383.
